

# THE PACIFIC TELEPHONE AND TELEGRAPH COMPANY

Sacramento, February 25, 1960

Mr. Elmer Forslund, Secretary  
Reclamation District No. 684  
707 Bank of America Bldg.  
Stockton, California

Dear Sir:

Attached for your consideration are four copies of an application to the State Reclamation Board for approval of plans, namely, a location map showing, in red, the location for aerial wire over the levee between Roberts Island and Vulcan Island and a pole, anchor and buried wire in the toe of the south side of the levee, in San Joaquin County, California.

The pole is an existing Pacific Gas and Electric Company pole in which the Telephone Company is purchasing one-half interest.

If the application is satisfactory, please secure the necessary signatures of the Trustees of the District and return three copies to the undersigned for submittal to the Reclamation Board for final approval.

The fourth copy is for your file.

Yours very truly,

*R. S. Pratt*  
Right of Way Supervisor  
1006 - 14th Street  
Sacramento, California
